

Action: Moved that the UPRD join the HR Chamber and the Skamania Co Chamber providing fees are reasonable; also include payment for the Business ID. M-Blayney/S-Marc/Carried

6. RV campsites ? (Marc)

Weed wacking under process around south boundary. A french drain needed and a work party to do the clearing and improvements. Blayney commented that we need a Physical Plant planning committee, and this could be coordinated through them. Many details to be worked out.

7. Technology Training for our new email addresses, website, calendar, etc.

Alicia proposes to set up a work session so that Shawna can go over our technology needs with the Commissioners. Session will be next week, Monday, at Bob's house at 6 pm.

We want to do a better job of getting notices out about the Commissioners' meetings.

There are three email addresses...these need to be trimmed and limited. We also have Facebook.

8. New sign progress (Blayney)

Signmaker (Tommy Hood) finally got the check from the County after many issues with payment. Wooden sign will be ready by mid-July. Need a sign to replace the rusting metal sign on the front of the building. Also have artwork for stationery and business cards (\$275) if we use his printer. Intention is to use his printer. Moved that we spend \$275 for the executive package (using his printer) from Tommy Hood. M-Marc/S-Blayney/Carried.

9. Building upgrades for this year (Blayney/Bob)

Blayney reiterated that we need a physical plant planning committee and a work session. Marc stated he doesn't think we can do much more to the grounds other than put in a French Drain until we have more resources.
